

United States Senate

WASHINGTON, DC 20510

April 15, 2026

The Honorable Susan Collins
Chair
Senate Committee on Appropriations
United States Senate
S-128, The Capitol
Washington, D.C. 20510

The Honorable Patty Murray
Vice Chair
Senate Committee on Appropriations
United States Senate
S-128, The Capitol
Washington, D.C. 20510

The Honorable Lisa Murkowski
Chair
Senate Committee on Appropriations
Subcommittee on Interior, Environment and
Related Agencies
Washington, D.C. 20510

The Honorable Jeff Merkley
Ranking Member
Senate Committee on Appropriations
Subcommittee on Interior, Environment and
Related Agencies
Washington, D.C. 20510

Dear Chair Collins, Vice Chair Murray, Chair Murkowski, and Ranking Member Merkley:

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2027 Interior, Environment and Related Agencies Appropriations Bill, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate. Additionally, none of the entities for which I have requested congressionally directed spending are for-profit entities.

Sincerely,

Jeanne Shaheen
United States Senator

**Shaheen, Jeanne(D-NH) Interior and Environment
Congressionally Directed Spending Requests**

Recipient Name	Project Purpose	Project Location	Amount Requested (\$000)
U.S. Forest Service	Funds will be used to restore and relocate three primary trails on Mt. Chocorua with work led by the Appalachian Mountain Club (AMC) in coordination with regional Conservation Corps and trails organizations to ensure these popular legacy trails can accommodate continued high levels of use.	Carroll County NH	\$1,650
City of Claremont	The City of Claremont requests funds for critical equipment upgrades for its Wastewater Treatment Facility (WWTF), serving thousands of community residents.	Claremont NH	\$2,400
City of Dover	CDS funds will be used to complete a City-wide assessment of Supervisory Control and Data Acquisition needs in addition to purchasing an upgraded software that meets the growing City's demands.	Dover NH	\$600
Town of Epping	The funds will be used to perform critical upgrades at Epping's municipal wastewater treatment facility to correct multiple redundancy and control deficiencies that are critical to the long-term successful operation of the plant's membrane equipment.	Epping NH	\$3,800
Town of Hopkinton	The Town is requesting funds to conduct an alternative assessment to determine the best method for replacing the Hopkinton pump station.	Hopkinton NH	\$128
City of Keene	CDS funds will be used to replace critical wastewater infrastructure serving the Blackbrook Industrial Park and surrounding residential areas in Keene to improve reliability and system capacity.	Keene NH	\$1,768
Town of Londonderry	This project will support the installation of new water mains and related infrastructure for reliable access to safe drinking water. Funding will also cover the engineering, permitting and inspection to meet water quality and construction standards.	Londonderry NH	\$1,505
City of Manchester	Funds would be used to construct a new wastewater treatment plant pump station including upgraded parts and valves to replace equipment dating back to 1975.	Manchester NH	\$2,000
Hooksett Village Water Precinct	The funds would be used to construct approximately 3,800 linear feet of new 12-inch diameter water main. This will create a large loop connecting both sides of the river, increasing resiliency and improving water quality, flow and pressure for residents, businesses and key municipal facilities.	Merrimack County NH	\$1,570
New Hampshire Department of Environmental Services	Funds would support development of high-resolution, lidar-derived 3-dimensional hydrography data for NH, creating accurate stream networks connecting streams, wetlands, stormwater and groundwater.	Merrimack County NH	\$2,311
Town of Milford	Funding will be used to design and construct the proposed Municipal Drinking Water System Improvements. The funds will be used to complete the replacement of the transmission water main that runs on Nashua Street which is currently undersized.	Milford NH	\$2,180
Town of Milton	CDS funds will be used for emergent repairs and upgrades at Milton's Wastewater Treatment facility.	Milton NH	\$1,000
Mont Vernon Heritage Commission	Funds will be used to protect the historic 1781 Town Hall (Old Meeting House) by adding fire suppression, updating electrical systems and improvements for public safety and accessibility.	Mont Vernon NH	\$250
John Hay Estate at The Fells	CDS funds will be used to re-shingle the Main House roof with historically accurate wood shingles and replace the building's aging steam boiler with an air-source heating and air conditioning system.	Newbury NH	\$272

Town of Newport	The Town of Newport will use CDS funds to replace 30-year-old water meters with an automated metering system.	Newport NH	\$623
Plymouth Village Water & Sewer District	The Water Distribution System Upgrades project includes replacing the existing Low Service Zone Tank and associated appurtenances to provide safe, reliable, and resilient drinking water to the Town of Plymouth.	Plymouth NH	\$3,000
City of Portsmouth	Funds will support improvements to the sewer collection system to help prevent excessive amounts of stormwater and groundwater from entering the sanitary sewer system through inflow and infiltration, as well as to reduce the frequency and intensity of combined sewer overflow events.	Portsmouth NH	\$500
City of Portsmouth	The project will focus on drainage, stormwater management and resilient upgrades to protect historic structures and public infrastructure at Prescott Park.	Portsmouth NH	\$4,500
City of Rochester	Funds will be used to prepare and stabilize the shore adjacent to the City of Rochester Round Pond Reservoir. Preparation and stabilization efforts include removal of trees that will be inundated, regrading of adjacent property and construction of small rock walls along the embankment.	Rochester NH	\$1,000
Town of Salem	This project will install 9,700 feet of 16", 8" and 6" water mains on Lake Street, Bluff Street and portion of Millville Street to remove dead end lines and improve water quality for the residents of Salem and the surrounding communities.	Salem NH	\$2,000
Town of Newport	The Town of Newport seeks funds to expand the existing solar array at its wastewater treatment plant to meet the increased energy demand resulting from the facility's upgrade.	Town of Newport NH	\$880
Town of Winchester	Funds would construct both a 220,000 cubic foot drinking water storage tank and urgently replace approximately 5,060 linear feet of water main.	Winchester NH	\$2,760
